

OVERVIEW

Nevada Learning Series is proud to offer electronic versions of our quick reference products and solutions. Many of our clients use our printed products in conjunction with one or more of our electronic products to achieve the maximum benefit quick reference solutions can provide. While Nevada does recommend using our electronic products as support to the printed guides, some of our clients have chosen to use the electronic formats as stand alone tools for their reference solutions.

PRODUCTS OFFERED

- Windows 7
- Excel 2010
- PowerPoint 2010
- OneNote 2010
- iPad v2
- Word 2010
- Outlook 2010

- Publisher 2010
- SharePoint 2010

“QUICK” FACTS

- Presented by former Microsoft veteran employee Chris Bertelson in a clear, concise, learning-based series of videos.
- 2 – 8 minute, tasked-based, “Youtube” style instructional videos that focus on 10 or more essential product features.
- Encompass Nevada’s goals of “quick” and “just-in-time” learning.
- QuickClips enhance “visual learners” and are complemented by Nevada’s PDF and printed guides.
- Easily integrated into PDF guides with the inclusion of a smart “Q” icon link to the video, further developing the user’s skills.
- QuickClips can be customized to suit the needs of any organization (by including additional features, for example)
- Delivered on CDs, which your organization can load onto its Intranet and integrate with your current learning/IT portal
- Now available in MP4 format
